DS3608-HP/DS3678-HP Ultra-Rugged Scanner

UNSTOPPABLE PERFORMANCE ON 1D/2D BARCODES AT LONGER DISTANCES — PLUS OCR, PHOTOS AND DOCUMENTS

Every day, workers in your warehouse and on the manufacturing plant floor scan thousands of barcodes to ensure product quality and on-time order delivery. Their productivity depends on the quality of the scanner you put in their hands. When your workers need to capture 1D and 2D barcodes, OCR, photos and documents, with the corded DS3608-HP and cordless DS3678-HP High Performance imagers, you can give them the best — unmatched rugged design, unmatched scanning performance and unrivaled manageability. Advanced scanning delivers lightning-fast capture of any 1D or 2D barcode to nearly 7 ft./2.1 m away, regardless of whether it is printed on a label in virtually any condition, or displayed on a screen. The ultra-rugged design is practically indestructible — ideal for punishing environments. The scanners couldn’t be easier and less time-consuming to deploy and manage. And when it comes to cordless technology, the DS3678-HP is loaded with Zebra-only features that put it in a class of its own. The DS3608-HP/DS3678-HP — the unstoppable performance you need to maximize workforce productivity and throughput in your operations.

Superior scanning performance on any 1D/2D barcode, in any condition

The advanced imager reads 1D and 2D barcodes displayed on a screen or printed on a label faster and with 30 percent more working range than similar models in this class, delivering extraordinary productivity. Workers get first time capture of virtually every barcode, even if it is damaged, dirty, poorly printed or under shrinkwrap.

Ultra-rugged — the most indestructible design in its class

The DS3608-HP/DS3678-HP is our most rugged scanner yet, with the highest drop, tumble and sealing specification in its class. The DS3608-HP/DS3678-HP is built to survive an 8 ft./2.4 m drop to concrete — 23 percent more durable than any other scanner in this class. The DS3608-HP/DS3678-HP operates reliably after 5,000 tumbles, simulating the real-world tumbling that occurs with a drop. Both models are dustproof, sprayproof and waterproofed to IP67 — they can be sprayed down with jetting water and even submerged in water for up to 30 minutes.

Beyond barcodes: capture OCR, photos and documents

With Zebra’s intelligent document capture we take photos and sharpen and correct the images so they are easier to read. And support for multiple OCR fonts enables fast and easy transfer of data.

Easy management with our complimentary industry-best tools

Remotely configure scanners, upgrade firmware, format data properly for your back end and monitor PowerPrecision+ battery statistics and more with 123Scan2 and Scanner Management Service (SMS).

Multi-code captures and processes up to 20 barcodes simultaneously

Many labels have multiple barcodes your workers need to capture. Now, one press of the trigger captures the right barcodes and applies the unique data format required for each one for instant transmission to your backend systems — all with complete control over the order barcodes are processed.

Faster pick-list processing

Users can easily select and capture an individual barcode from any pick list.

Extreme temperature rating

Built to handle extreme cold, heat and humidity, you can use these scanners anywhere — even in the freezer*.

A Bluetooth model in a class of its own for superior cordless freedom

Bluetooth 4.0 (Low Energy) provides lightning fast wireless communication and maximum energy efficiency.

Our Zebra Wi-Fi Friendly Mode eliminates the wireless interference that Bluetooth devices can often create in your Wi-Fi environment.

The ‘go anywhere’ rugged cradle offers superior versatility and durability. The DS3678-HP is the only scanner in its family to offer a cradle with IP65 sealing. And its industrial charging contacts withstand 250,000 insertions.

The first-in-its-class battery ‘charge gauge’ and Bluetooth status LED make it easy to monitor battery power as well as Bluetooth connectivity.

The PowerPrecision+ battery delivers the ultimate in battery power and management. You get 56 percent more scans-per-charge compared to competitive models, plus visibility into a wealth of battery health-related data, including charge cycles consumed, current battery status and a State of Health meter, which identifies if batteries are healthy and holding a full charge or ready for retirement.

THE DS3608-HP/DS3678-HP — ADVANCED CAPTURE OF 1D/2D BARCODES, DOCUMENTS, IMAGES AND MORE IN AN ULTRA-RUGGED SCANNER THAT REDEFINES RELIABILITY.
