Enhance Customer Service with Faster Checkouts
Moving customers through checkout quickly is one of the most important issues faced by retailers today. The LS7708 mini-slot scanner from Symbol is the perfect choice for retailers looking for higher throughput and increased productivity.

The on-counter LS7708 is available for presentation or swipe scanning in an attractive form factor. For fast, accurate merchandise scanning at checkout, this easy-to-use, hands-free scanner requires minimal operator effort. Every feature contributes to increased performance for more efficient, rapid customer checkouts.

Superior Design and Flexibility
The LS7708’s easy-to-use design enables employees to spend more time with customers. It has a large scan window for easy and intuitive scanning. An omni-directional, rastering scan pattern with moving laser scan lines delivers superior first-pass read rates and better performance on truncated symbols.

For retailers with occasional bulky or heavy items, the LS7708 features a secondary scanner port to connect a handheld scanner. This removes the need for customers or associates to pick up and place cumbersome items on the counter, which saves valuable time. The LS7708 combines the benefits of productive, hands-free scanning with the versatility of a handheld scanner.

High Performance at an Affordable Price
For medium- to high-volume retailers such as drug, grocery, specialty soft goods, hard goods and department stores, the LS7708 offers a cost-effective, hands-free solution. The LS7708 is designed for maximum uptime to withstand the toughest and busiest retail environments. An integrated EAS antenna in every scanner provides the interface for electronic article surveillance (EAS) de-activation, which makes the LS7708 one of the best values on the market today.

Lower Total Cost of Ownership (TCO)
For a lower TCO, the LS7708 scanner has the identical solid reliability of the successful LS5700 plus added performance capabilities. LS7708 scanners read Reduced Space Symbology® (RSS), which offers tracking identification for produce and pharmaceuticals, to future proof your investment.

Increase Associate and Checkout Productivity
First-pass data capture, less time spent orienting bar codes and secondary scanning capabilities all contribute to increased productivity. Improve worker and point-of-sale productivity in all these ways, and you can speed customers through checkout lines faster and more efficiently.

Service Options
Symbol offers complete training, installation and ongoing support services to provide seamless deployment, management and continued support of all your advanced data capture solutions.

LS7708 Decode Zone

Note: Typical performance at 73.4°F (23°C) on high quality symbols.

Performance Characteristics
- **Light Source:** 650nm visible laser diode
- **Print Contrast:** 25% minimum reflectivity difference
- **Scan Patterns:** Static/Raster - Omnidirectional/24/120 scan lines
- **Scan Rate:** Static/Raster - Omnidirectional: 2400 scans/second
- **Typical Working Range:**
  - 5 mil: (38%) 0.5 in - 2.5 in (1.25 cm - 6.4 cm)
  - 7.8 mil: (60%) 0 - 5.0 in (0 - 12.7 cm)
  - 10.4 mil: (80%) 0 - 7.5 in (0 - 19.0 cm)
  - 13 mil: (100%) 0 - 10.0 in (0 - 25.4 cm)
- **Depth of Field:** 0-10 in/25 cm @ 13 mil (100% UPC/EAN)
- **Minimum Resolution:** 5 mil
- **Interfaces Supported:** USB, RS 232, IBM® 468X/9X, Keyboard Wedge, and Synapse™ (allows connectivity to virtually every POS host type), SPI-1 (for 123 Scan)

User Environment
- **Operating Temperature:** 32° to 104°F (0° to 40°C)
- **Storage Temperature:** -40° to 158°F (-40° to 70°C)
- **Humidity:** 5% to 95% (non-condensing)
- **Ambient Light Immunity:** Immune to normal artificial indoor and natural outdoor (direct sunlight) lighting conditions. Fluorescent, Incandescent, Mercury Vapor and Sodium Vapor: 450 Ft Candles (4,844 Lux) Sunlight: 8000 Ft Candles (86,111 Lux)
- **EAS Support:** Electronic Article Surveillance Antenna (EAS) Included; Interlock feature for Sensormatic and Checkpoint

Regulatory
- **Electrical Safety:** Certified to UL 1950, CSA C22.2 No. 950 EN60825
- **Laser Safety:** CDRH Class IIa Laser Product
- **Antenna (EAS) Included:** Interlock feature for Sensormatic and Checkpoint

About Symbol Technologies
Symbol Technologies, Inc., The Enterprise Mobility Company™, is a recognized worldwide leader in enterprise mobility, delivering products and solutions that capture, move and manage information in real time to and from the point of business activity. Symbol enterprise mobility solutions integrate advanced data capture products, radio frequency identification technology, mobile computing platforms, wireless infrastructure, mobility software and world-class services programs under the Symbol Enterprise Mobility Services brand. Symbol enterprise mobility products and solutions are proven to increase workforce productivity, reduce operating costs, drive operational efficiencies and realize competitive advantages for the world’s leading companies. More information is available at www.symbol.com.
